**What's New in the AVCWare MP4 Converter?**

The application doesn't take long to install and it doesn't come with a complicated

---

setup that you would need to complete before you can actually use it. It sports a clean and intuitive graphical interface with many nice tools at hand. Sleek and clean user interface The application doesn't take long to install and it doesn't come with a complicated setup that you would need to complete before you can actually use it. It sports a clean and intuitive graphical interface with many nice tools at hand. Over 100

---

formats supported The application sports a sleek and clean interface. As well as many other handy features. You can convert between all popular video/audio formats including AVI, MPEG, WMV, DivX, MP4, H.264/MPEG-4 AVC, RM, MOV, XviD, 3GP, FLV, MP2, MP3, WMA, WAV, RA, M4A, AAC, AC3, OGG and AU formats, convert videos to audio formats, extract pictures from video files, and create videos from pictures,

---

especially convert WMV to AVI/MPEG formats as a WMV converter and convert MPEG to iPod formats as a MPEG converter. Multi-threading with CPU usage monitoring  
Multi-threading with CPU usage monitoring The application supports multi-core CPU system with monitor. It automatically detects and uses multi-threading technology to convert files with more speed and accuracy to get your work done faster. With

---

the CPU usage monitor feature, you can use the computer more efficiently and without worry of the computer slowing down while doing complicated conversion tasks. Support for multi-core system The application supports multi-core system with monitor. It automatically detects and uses multi-threading technology to convert files with more speed and accuracy to get your work done faster. With the CPU

---

usage monitor feature, you can use the computer more efficiently and without worry of the computer slowing down while doing complicated conversion tasks. Multi-split support Multi-split support Supports all the splits, such as every two seconds, every ten minutes, every half hour, every hour, every day, every week, every month, every year, custom or random splits. Supports all the splits, such as every two seconds,

---

every ten minutes, every half hour, every hour, every day, every week, every month, every year, custom or random splits. Works with external devices Supports USB devices. It also supports a lot of external devices to convert files without worrying about the devices being connected or disconnected

---

## System Requirements:

Minimum: OS: Windows 7  
Processor: Intel Core i3 or AMD equivalent  
Memory: 6 GB RAM  
Recommended: OS: Windows 8/10  
Processor: Intel Core i5 or AMD equivalent  
Memory: 8 GB RAM  
Additionally, the game will run on lesser system specifications. This includes, but is not limited to, the following:  
Processor: Intel Core i3, AMD equivalent or lower  
Memory: 4 GB RAM
